CAREER OBJECTIVE

Dedicated B-Tech Data Science student with hands-on experience in Python, data analysis, machine learning, cloud computing, and enterprise platforms. Passionate about leveraging data-driven insights and AI-powered solutions to solve real-world problems. Seeking an internship opportunity to apply analytical and technical skills, contribute to impactful data science projects, and grow within a forward-thinking organization.

EDUCATION

Bachelor of Technology (B-Tech) in Data Science — CGPA: 7.9

Aditya College of Engineering and Technology, Kakinada, India | Expected June 2027

Intermediate (MPC) — 86%

Narayana Junior College, Rajahmundry, India | June 2023

SSC (10th Grade) — 77%

Peter Gilliard Memorial English Medium High School, Diwancheruvu | June 2021

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, Java
- **Data & Analysis:** NumPy, Pandas, Microsoft Excel, Power BI (Dashboards & Visuals)
- **Data Science:** Machine Learning (Basics), Statistics, Predictive Modelling (Academic)
- **Web Technologies:** HTML, CSS, JavaScript (Basics)
- **Cloud & DevOps:** AWS (EC2, S3, IAM, VPC), Docker, Terraform
- **Platforms:** ServiceNow (ITSM, Flow Designer, Service Catalog)
- **CS Fundamentals:** Data Structures, OOP, DBMS, Operating Systems (Basics)
- **Tools:** Visual Studio Code, Git, GitHub, Figma (Basic)
- **Soft Skills:** Problem Solving, Teamwork, Time Management, Communication

PROJECTS

Hotel Service Management

- Developed a Smart Hotel Service Management System using ServiceNow and React.js.
- Automated guest requests and task assignment using Flow Designer.
- Implemented real-time tracking and notifications to improve hotel service efficiency.

Deploying a Web Application on Amazon ECS

- Designed and deployed a scalable containerized web application using Docker and Amazon ECS (Fargate).
- Automated infrastructure provisioning using Terraform, improving deployment efficiency.
- Analysed deployment metrics and cost data to optimize cloud resource usage and minimize operational overhead.

Visitor Entry and Safety Alert System

- Built a secure visitor management system with real-time alerts and digital logs using Python for backend logic and data logging.
- Improved workplace safety and monitoring efficiency through automated notification handling.
- Demonstrated problem-solving, system design, and real-time notification handling skills.

INTERNSHIPS

Technical Hub Private Limited — ServiceNow Internship

- Trained on ServiceNow platform fundamentals including ITSM modules, incident and request management, and basic workflow automation.
- Worked on configuring forms, workflows, and business rules to support efficient service operations.

APSSDC — AWS Cloud Computing Internship

- Built practical cloud expertise by deploying and managing AWS services including EC2, S3, IAM, and VPC.
- Focused on real-world infrastructure scenarios and cost-optimized cloud deployments.

CERTIFICATIONS

- Certified ServiceNow System Administrator
- Certified ServiceNow Application Developer
- Google Cloud Fundamentals – Google Cloud Skill Boost
- Database Foundations – Oracle Academy

Willing to relocate to Kerala / Tamil Nadu for internship opportunities.
